

Memorandum of Understanding

for the establishment of regional stakeholder networks
to improve access to finance business

Slovenia

Background

A major challenge for the sustainable economic & social development in the Danube region is the difficulty in accessing finance for small and micro enterprises. CrowdStream project addresses this challenge and has its main objective to improve the effectiveness of public/private business support organization innovative spin-offs & social enterprises to access qualitative alternative financing.

Common interest

The signing party of this Memorandum of Understanding recognizes the points identified by CrowdStream as essential for improving the access to qualitative alternative financing:

- Guaranteeing a qualitative access to crowdfunding
- Improving framework conditions for innovation
- Enhancing cooperation and business support
- Impacting the financing market

Commitment

The signing party of this Memorandum of Understanding commits as a Member of the Regional Network of Slovenia to support:

- the development of regional project-relevant activities for improving access to finance for business;
- the process of increasing knowledge and capacity on crowdfunding in the region as well as the exchange of cross-border best practices;
- the sustainable quality assurance within the own regional stakeholder network and the transnational network, which links all regional networks.
